

Ultra Feed Series Conveyors

UF-3000 Hopper/Incline Conveyor

Add more automation to your packaging operations with the UF-3000. It is designed to transport bulk products from floor heights and ensures consistent and accurate parts flow.

Option A

This version is designed for lighter objects or molded products.

Option B

This version is a vibratory hopper/conveyor. It includes a Vibratory Feed Tray and can handle light or heavy products. Options include plastic shielding to keep products in conveyor bins.
